

## OHND Attorney Wireless Troubleshooting Tips

If you are having problems connecting to the wireless network, please check the following items:

1. Check to make sure you have WI-FI enabled on your computer
2. Check to make sure you have Airplane Mode disabled on your computer
3. Do you have Pop-Up blocking enabled? Disable pop up blockers within your Internet browser
4. If it says your connected but still unable to access the internet forget the attorney wireless and reconnect to the network.

Once you see this screen, please check the box accepting the Terms of Service for the network. Please note you will have to redo this process every 24 hours.
